I hereby authorize the applicant listed above to make this application for proposed work as my agent. I agree the statements made in this application and submitted plans are true, and if found not to be true, any zoning permit that may be issued may be void. Further, I agree to comply with the conditions and regulations provided with any permit that may be issued. Further, I agree the permit that may be issued is with the understanding all applicable sections of the City of Saugatuck Zoning Ordinance and all other applicable laws, ordinances and regulations will be complied with. I additionally grant City of Saugatuck staff or authorized representatives thereof access to the property to inspect conditions, before, during, and after the proposed work is completed. Finally, I understand this is a zoning permit application (not a permit) and that a zoning permit, if issued, does not include any representation or conveyance of rights in any other statute, building code, fire code, deed restriction or other property rights.

PROJECT DESCRIPTION (ATTACH MORE SHEETS IF NECESSARY)

SITE PLAN REQUIREMENTS (SECTION 154.061)

A) Applications for preliminary site plan approval shall consist of the following information unless waived by the Zoning Administrator.

Y N NA

- Property dimensions
- Significant vegetation
- Water courses and water bodies, including human-made surface drainage ways
- Existing public right-of-way, pavements and/or private easements
- Existing and proposed uses, buildings, structures and parking areas
- Zoning classification of abutting properties
- The name, address and telephone number of the person and firm who prepared the site plan, and the date on which it was prepared
- A north arrow

B) Applications for final site plan approval shall consist of the following information unless waived by the Zoning Administrator. One (1) paper copy of a final site plan (no greater than 11" x 17") and one (1) digital copy, at a scale of not less than one inch equals ten feet, shall include:

Y N NA

- Dimensions of property of the total site area,
- Contours at 2-foot intervals
- Locations of all buildings
- Other structures on adjacent properties within 100 feet of the property, including those located across the street from the property
- Parking areas
- Driveways
- Required and proposed building setbacks
- Location of abutting streets and proposed alignment of streets, drives and easements serving the development, including existing rights-of-way and pavement widths;
- Location, screening, dimensions and heights of proposed buildings and structures, such as trash receptacles, utility pads and the like, including accessory buildings and uses, and the intended uses thereof. Rooftop or outdoor appurtenances should also be indicated, including proposed methods of screening the equipment, where appropriate;
- Location and dimensions of parking areas, including computations of parking requirements, typical parking space dimensions, including handicapped spaces, and aisle widths;
- Proposed water supply and wastewater systems locations and sizes;
- Proposed finished grades and site drainage patterns, including necessary drainage structure. Where applicable, indicate the location and elevation of the 100-year floodplain;
- Proposed common open spaces and recreational facilities, if applicable;
- Proposed landscaping, including quantity, size at planting and botanical and common names of plant materials;
- Signs, including type, locations and sizes;

Site Plan Review Application

- Location and dimensions of all access drives, including driveway dimensions, pavement markings, traffic-control signs or devices, and service drives;
- Exterior lighting showing area of illumination and indicating the type of fixture to be used.
- Elevations of proposed buildings drawn to an appropriate scale shall include:
 1. Front, side and rear views;
 2. Heights at street level, basement floor level, top of main floor, top of building, and if applicable, height above water level; and
 3. Exterior materials and colors to be used.
- Location, if any, of any views from public places to public places across the property;
- Location, height and type of fencing; and
- The name and address of the person and firm who drafted the plan, the seal of the professional responsible for the accuracy of the plan (licensed in the state) and the date on which the plan was prepared.

STANDARDS FOR APPROVAL (SECTION 154.063)

Please respond to each of the following questions by explaining how the proposed development will meet the standards for site plan approval:

*note: not all questions will apply for all requests.

(1) How will the elements of the site plan shall be harmoniously and efficiently organized in relation to topography, the size and type of lot, the character of adjoining property and the type and size of the buildings? Will the site be so developed as not to impede the normal and orderly development or improvement of surrounding property for uses permitted in this chapter? _____

(2) How will the landscape be preserved in its natural state, insofar as practical, by removing only those areas of vegetation or making those alterations to the topography which are reasonably necessary to develop the site in accordance with the requirements of this chapter? _____

(3) How will the site plan provide reasonable visual and sound privacy for all dwelling units located therein? How will fences, walks, barriers and landscaping shall be used, as appropriate, be used to accomplish these purposes? _____

(4) How will all buildings or groups of buildings be arranged so as to permit necessary emergency vehicle access as required by the Fire Department? _____

(5) How will there be provided a pedestrian circulation system which is separated from the vehicular circulation system. In order to ensure public safety, special pedestrian measures, such as crosswalks, crossing signals and other such facilities may be required in the vicinity of schools, playgrounds, local shopping areas and other uses which generate a considerable amount of pedestrian traffic? (All federal, state and local barrier free requirements shall be met.) _____

Site Plan Review Application

- (6) How will the arrangement of public or common ways for vehicular and pedestrian circulation be connected to existing or planned streets and pedestrian or bicycle pathways in the area? Will streets and drives which are part of an existing or planned street pattern serving adjacent development be of a width appropriate to the traffic volume they will carry and shall have a dedicated right-of-way equal to that specified in the City's land use plan?

- (7) How will all streets be developed in accordance with city specifications, unless developed as a private road?

- (8) How will appropriate measures be taken to ensure that removal of surface waters will not adversely affect neighboring properties or the public storm drainage system? Will provisions be made to accommodate storm water, prevent erosion and the formation of dust? The use of detention/retention ponds may be required. Surface water on all paved areas shall be collected at intervals so that it will not obstruct the flow of vehicular or pedestrian traffic, create puddles in paved areas or create erosion problems. _____

- (9) How will all loading and unloading areas and outside storage areas, including areas for the storage of trash, which face or are visible from residential districts or public thoroughfares, shall be screened by an opaque wall or landscaped screen not less than six feet in height? (See §§ [154.142](#) through [154.144](#)).

- (10) How will exterior lighting be arranged so that it is deflected away from adjacent properties and so that it does not impede the vision of traffic along adjacent streets? Flashing or intermittent lights shall not be permitted.
