*An ordinance to amend the City of Saugatuck's Zoning Ordinance to update signage regulations to regulate signs in a content-neutral manner, and to promote the public health, safety, and welfare of the residents and visitors of the City of Saugatuck.*

CITY OF SAUGATUCK, ALLEGAN COUNTY, ORDAINS:

**SECTION 1. AMENDMENT TO ZONING ORDINANCE, SECTION 154.140:** The City of Saugatuck Zoning Ordinance, Section 154.140 is amended to revise the regulations and definitions applicable to signage within the City. Section 154.140 shall now read as follows:

**(A) Purpose.** The purpose of this Section is to regulate signs within the City of Saugatuck (the "City") in a content-neutral manner to protect the health, safety and general welfare, to protect property values, and to protect the character of the various neighborhoods in the City. This Section intends to make the City attractive to residents, visitors, commercial, and professional businesses while maintaining a sustainable economy through an appropriate signage program. The elements of this program will:

- (1) Recognize that the proliferation of signs is unduly distracting to motorists and nonmotorized travelers, reduces the effectiveness of signs directing and warning the public, causes confusion, reduces desired uniform traffic flow, and creates potential for accidents.
- (2) Prevent signs that are potentially dangerous to the public due to structural deficiencies or disrepair.
- (3) Enable the public to locate goods, services, and facilities without excessive difficulty and confusion by restricting the placement of signs.
- (4) Prevent placement of signs which will conceal or obscure signs of adjacent uses.
- (5) Preserve and improve the aesthetics and character of the City by encouraging signs of consistent size which are compatible with and complementary to related buildings and uses, and harmonious with their surroundings.

- (6) Provide regulations that focus on the time, place, manner, and physical characteristics of signs, but not the content of signs in accordance with the First Amendment of the United States Constitution.

**(B) Definitions.** For the purpose of this subchapter, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

**ABANDONED SIGN.** A sign that has been determined to be “abandoned” for a period of thirty (30) days or longer as determined by the Zoning Administrator. The following conditions may be considered by the Zoning Administrator to determine whether a sign has been abandoned:

- (1) Whether the sign displays advertising for a product or service which is no longer available.
- (2) Whether the sign displays advertising for a business which is no longer licensed.
- (3) Whether the sign is in disrepair as determined by the Zoning Administrator, including but not limited to, signs that are missing portions of the display, have chipped or dilapidated paint or other components, or have structural components that have fallen into disrepair.
- (4) Whether the sign advertises a business that is no longer doing business on the parcel where the sign is located, if the business was originally located on that parcel.
- (5) Whether the purpose of the sign has lapsed.
- (6) Whether the sign has historical significance for the City as determined by the Zoning Administrator.
- (7) Whether there are plans to repair the sign, including adding a new display or transitioning to a different display, or to repair any structural damage or disrepair.

**BANNER.** A temporary flexible sign directly mounted to a building, or a support on a building, or between two poles made of natural or synthetic material, not including flags as defined in this section.

**BILLBOARD.** Any free-standing permanent sign on a parcel of land which does not include another principal structure.

**DARK-SKY FRIENDLY.** Lighting designed to minimize light pollution by directing light downward. Dark sky compliant fixtures are fully shielded, energy-efficient, and use appropriate colors (such as warm colors designed to minimize short-wavelength light) to reduce glare and skyglow.

**FEATHER FLAG SIGN, WINDFEATHER SIGN.** A flexible sign made of natural or synthetic material typically fastened on one long side to a flexible or non-flexible pole mounted on the ground, intended to move with the wind, not including flags as defined in this section.

**FLAG.** A piece of fabric that is hung from a pole, a bracket, or attached to the side of a building.

**FLAGPOLE, PERMANENT.** A freestanding pole permanently mounted with a foundation on the ground and used for the sole purpose of displaying a flag or flags.

**FLAGPOLE, TEMPORARY.** A temporary pole that can be mounted on a structure or building, or affixed or driven into the ground, for the sole purpose of displaying a flag.

**ILLUMINATED SIGN.** Any sign that is illuminated by any light source other than non-reflected natural daylight.

- (1) **EXTERNALLY ILLUMINATED SIGN.** A sign that is illuminated by an external source, which reflects light off the surface of a sign face.
- (2) **INTERNALLY ILLUMINATED SIGN.** A sign with internal electronic circuitry emitting light through the sign face.
- (3) **NEON SIGNS.** A sign illuminated by luminous gas-discharge tubes containing rarefied neon or other gases (such as helium, argon, krypton, xenon, or mercury vapor) that produce a visible ambient light when connected to an electric current, or by similar electronic technologies, such as light-emitting diodes (LEDs), designed to create a static ambient light display.

**MURAL.** A permanent noncommercial work of art applied to or made integral with a wall or structure. A mural shall not include any signs with words, letters, characters, or numbers intended to identify a business.

**NON-RESIDENTIAL PROPERTY.** Any use of property or a portion of a property that is not a “residential property,” as defined herein. The common areas of a multi-family dwelling unit (such as an apartment complex) or a housing development with multiple dwelling units shall be considered non-residential for purposes of allowable signage. In the case of a mixed use property, the non-residential portions shall be entitled to the allowable signage for non-residential properties, whereas any residential dwelling units within the mixed use property shall each be categorized as residential property for purposes of this Section.

**PENNANT.** Any lightweight plastic, fabric, or other material, suspended from a rope, wire, or string, usually in series, designed to move in the wind.

**PERMANENT SIGN.** Any sign constructed of durable materials, secured on a structure or property, and intended to exist for the duration of time that the use or occupant is located on the premises.

**PORTABLE SIGNS.** Except for signage falling under another definition herein, any sign designed to be moved easily and not permanently or temporarily attached to the ground or other structure, including but not limited to: flashing A-frames, searchlights, beacons, balloons, umbrellas, trailers, wheeled or non-wheeled carts, or signs leaning against parked vehicles.

**RESIDENTIAL PROPERTY.** Any dwelling unit and the real property on which it is located, not including bed and breakfasts, inns, hotels, the common areas of a multiple family dwelling, or the portions of a mixed use property that are not used as a dwelling unit. For purposes of this Section, each dwelling unit on a particular property, except an accessory dwelling unit, is entitled to its own sign allowance as set forth herein. For example, a two-family dwelling would contain

two dwelling units, and each dwelling unit could display the allowable amount of signage as set forth herein.

**SANDWICH BOARD SIGN.** A temporary freestanding sign constructed in such a manner as to form an “A” or a tent-like shape, hinged or not hinged at the top, each angular face held at an appropriate distance by a supporting member.

**SIGN.** Any words, lettering, parts of letters, figures, numerals, phrases, sentences, emblems, devices, designs, trademarks, logos or pictures, or combination thereof, intended to be used to attract attention to or convey information about a person, place, business, firm, profession, or association.

**SIGN AREA.** The smallest area within a three- or four-sided polygon or circle enclosing the display surface of the sign including all letters, characters, and delineations that differentiate it from the background against which it is placed. **SIGN AREA** shall not include the structural supports for free standing signs. Where a sign has two faces, placed back-to-back, and are of equal size, the area of the two faces shall be considered as one face. If the two back-to-back faces are of unequal size, the larger of the two sign faces shall be counted as the sign area.

- (2) **MONUMENT SIGN.** A freestanding sign affixed directly to a masonry or other base without a support post.

**TEMPORARY YARD SIGN.** Any sign that is not constructed or intended for long term use or is not permanently attached to a building, window, or structure. A temporary yard sign is often double-faced and supported by metal legs or wooden post(s) anchored into a lawn or landscaped area with no permanent foundation. The sign face is typically made from lightweight materials such as corrugated plastic, cardboard, or wood, making it easy to install and remove.

**(C) Regulation of sign requirements.** All signs shall be subject to the following regulations to be enforced by the Zoning Administrator, unless otherwise provided in this chapter.

**(D) Sign permit procedure.** Except as provided herein, a sign permit shall be obtained from the Zoning Administrator prior to installation of any sign. - (1) The intent of this section is to permit the continuance of a lawful use of any sign existing at the time of the effective date of this section, although the sign or supporting structure may not conform with the provisions of this section. Further, it is the intent that non-conforming signs and structures be gradually eliminated upon their natural deterioration.
  - a. Every permanent legally existing sign which does not conform to the height, size, area, or location requirements of this subchapter as of the date of the adoption of this section, is hereby deemed to be non-conforming.
  - b. Alteration, erection, replacement, or enlargement of signs. - (2) *Accidental destruction of Non-Conforming Sign:*
  - a. If a non-conforming sign is destroyed, it may be replaced, provided that it is not enlarged in size or dimension. If the sign is located in the public right-of-way, the sign may not be replaced without the approval of the Zoning Board of Appeals for a sign permit.
  - b. For the purpose of this section, a non-conforming sign is destroyed if damaged to an extent that the cost of repairing it to its former state or replacing it with an equivalent sign equals or exceeds the value of the damaged sign prior to the damage.
- (3) A non-conforming sign may be diminished in size or dimension, or the copy of the sign amended or changed without jeopardizing the privilege of non-conforming.
- (4) *Permanent signs in the public right-of-way or in city parks:*
  - a. All existing non-conforming signs, supports, and structures located in the public right-of-way may continue to occupy the right-of-way until such time that they are accidentally destroyed, removed, or become non-functional. These signs shall not be replaced without approval of the Planning Commission for a sign

permit, the City Council for a revocable license, and the Historic District Commission if located in the Historic District.

**(K) Administration and enforcement:**

- (1) *Revocation of permit.* The Zoning Administrator shall have the authority to revoke any permit issued pursuant to this section if the requirements of the permit and the provisions of this section are being violated, and in such case shall have the power to issue a stop-work order.

**(L) Permitting Signs in the Right-of-Way:**

- (1) Except as otherwise provided herein, any sign that will be placed in the right-of-way, such as on City sidewalks, must receive a right-of-way permit from the Zoning Administrator. The Zoning Administrator, according to his or her sole discretion, may refer a permit application and decision as to whether to grant or deny the permit to the City Council. For purposes of this requirement, a sign placed in the right-of-way shall include any sign that is located within the right-of-way, but shall not include signs hanging or dangling above the right-of-way, such as flags.
- (2) Any sign placed in the right-of-way must be related to the applicant's property or a consenting landowner's property in one of the following ways:
  - a. The proposed sign is to be placed in the right-of-way directly adjacent to the applicant's property; or
  - b. The proposed sign is to be placed in the right-of-way directly adjacent to a consenting landowner's property, and the applicant must provide proof to the Zoning Administrator in writing that the consenting landowner has consented to the placement of the sign in the right-of-way.
- (3) Permit applications must include:
  - a. Name, address, and contact information for the application;
  - b. A description of the proposed sign, including the size of the sign, any illumination on the sign, and whether the sign will be affixed to or temporarily placed in the right-of-way;
  - c. The duration that the sign will be displayed, if applicable;
  - d. Payment of permit fees as set by the City; and
  - e. Proof of consent from a consenting landowner, if applicable

- f. Any additional information requested by the City.
- (4) Permit applications shall be submitted to the Zoning Administrator, who shall review the application for completeness and may request additional information from the applicant to assist in reviewing the application.
- (5) Permit applications shall be assessed by the Zoning Administrator based upon the following criteria:
- a. The potential risk of harm associated with such installation, including, but not limited to potential for the installation to encroach on the motorway, break, malfunction, or cause harm to pedestrians and motorists;
  - b. Whether the installation aligns with the surrounding area and provides an aesthetic benefit to the community;
  - c. The ease and cost of removal of the installation;
  - d. The proposed size of the installation, including height and width
  - e. The material of the installation (e.g. plastic, wood, metal, fabric/cloth, etc.); and
  - f. Review, comment, and recommendations of City staff.
- (6) Within a reasonable amount of time after receipt of a complete application, the Zoning Administrator shall approve, deny, or approve with conditions the permit application. An issued permit may be revoked by the Zoning Administrator if the applicant fails to abide by the conditions set forth in the permit or fails to maintain the installation. A permit may be automatically revoked if the installation fails to comply with the requirements in this Ordinance, causes or inflicts unreasonable harm on persons or property, or otherwise causes an unreasonable obstruction to the right-of-way.
